OFFENSIVE TERMINOLOGY

2001 BRONCO FOOTBALL

OFFENSIVE TERMINOLOGY

2 by 2 Set - 2 eligible receivers (including TE & RB) aligned on each side of the center.

3 x 1 Sets - 3 eligible receivers aligned to one side of center and 1 eligible receiver aligned to the other side (includes TE & RB).

Aiming Point - Reference point on the L.O.S. or defensive player toward which an offensive player will run/move from his alignment. This aiming point determines the player's path.

Ace - Playside center and guard double team vs a shade noseguard to a backside LB.

Angle Release - Inside slant release at a 45° angle at a depth of 3-5 yards before getting into the seam.

Base - 7 man Big on Big protection used in 2 back formations where the off. line is responsible for the 4 def. lineman and the MLB. QB front call will direct the center and RB's. RB's are responsible for OLB's.

Blitz - Defensive back rushing through a gap.

Box - The area from the bottom of the numbers to the sideline. "Save the box." Also refers to the area inside offensive tackle to offensive tackle.

Bull - Back up on LB. Used on counter plays where the H/F are pulling to block the LB. Tag word for counter.

Bull Pull - Pulling technique used by lead blocker on Bull plays. Run course into L.O.S. with enough depth to see your LB. Turn up for LB when in position.

Cadence - A combination of words and numbers used by the QB in a non-rhythmic count in order to get the ball snapped.

Cage - Center and backside guard combo vs a noseguard to a backside LB.

Check Release - Technique used by TE, H or RB to check his protection rule in the passing game and if his responsibility does not Dog or Blitz, release in the pass pattern.

Chip - Double team between center and guard on a noseguard to backside DE.

Cloud - The corner back rotates up (off the LOS) to force the run or play the flat coverage in zone. Cover 2 structure or 3 deep roll.

Clutch Series - Our two-minute offense.

Cobra - Refers to a corner blitz.

Contain - Responsibility given to a defender to keep the play from going wide.

Convoy - Backside receiver technique blocking a secondary defender.

Cop - Defensive End covering TE in dog/blitz situations.

Depth - The number of yards from the L.O.S.

Deuce - Double team between guard and tackle on a DT to a backside LB. Also formation with 2 TE on LOS and 2 WR off LOS.

Digable - Defender in position for WR to block from an outside position and working to the inside number of the defender.

Dime - Refers to 2 defensive backs replacing LB's or linemen in coverage (6 DB's)

Dog - LB'er rushing through a gap.

Down - Tells an off. lineman that he must block the defender in his gap alone because the adjacent off. lineman is doing the same.

EMLOS - End man on line of scrimmage.

Even - Call by QB at L.O.S. to alert that Center is covered by a Mike LB and both Guards are covered.

Face - True double team between a center and guard on a noseguard.

Five Call - Call by O.L. where all 5 are covered and they will block the 5 down linemen. Signal will be 5 fingers held up.

Flash & Go - Technique used by an off. lineman in which he shows pass, influencing a def. lineman up the field, then releases to his LB.

Fold - Back block by an off. lineman on a DT with the adjacent lineman pulling around to a LB.

Foot - Pass protection call by 2 adjacent off. lineman to a def. lineman with a stack linebacker. Both off. linemen step together foot to foot to handle any blitz by the linebacker.

Freak - Refers to a free safety blitzing.

Gut - Playside off. tackle down block to a 3 or 4i technique with playside OG gap pull to a playside LB.

Help - Backside combination block between a center and backside tackle. Center blocks down on a 3 or 4i technique and chips to a backside LB while the OT cuts off the 3 or 4i technique.

Hot - Designated receiver who must look for the quick pass from QB when #4 or outside defender blitzes on the side of the double read.

Jam - Technique used by defender to hold up receivers on the L.O.S.

L.O.S. - Line of Scrimmage

Left Up - Alignment of ball between hash and middle of field.

Left/Right - Call used for full OL to designate the direction on a full turn protection.

Line Him Up - Attacking defender's inside eye to make defender turn his hips. In other words, get him out of his back pedal.

Lock - Backside slide protection call by the center, guard and tackle to indicate that there are only 3 potential rushers.

Lucky/Ringo - Call used by OL to designate the direction on a slide protection.

M.O.F. - Middle of Field

MDM - Most dangerous man.

Man - Used to take off a zone scheme and, instead, base block the two defenders.

Moon - Backside tackle and tight end (or fullback) combo vs a 5 technique to a folding OLB.

Moose - True double team between a guard and tackle on a DT.

Nickel - Refers to one extra defensive back replacing LB or lineman in coverage (5 DB's).

"O" Call - Call made by frontside tackle to inform others that he is blocking out on DE. Pullers will understand that they will lead into the hole for appropriate LB's.

Out - Call used by tackle and tight end (or guard and tackle) to single block two defenders on the line. This term is used on the backside of slide protection to declare that the third defender is out of the box.

P.O.A. - Point of attack.

Pin Call - Call by off. linemen or tight end to tell the RB he is blocking down inside. RB will block 1st defender outside person making the call. Signal will be slapping the hip.

Post - Call by TE to alert that he will block defender aligned on him.

Power Cut - Push vertical and break coming back to QB slightly. (QB Friendly)

Pre-Snap Read - Defensive appearance prior to snap of the ball.

Press - Defensive back aligned close to wide receiver preparing to play tight man to man coverage (Bump & Run).

Push - Full speed. Everything looks like a takeoff! Take his cushion.

Q - Designated receiver who must look for the quick pass on the side of the single read on an inside linebacker blitz.

Rake - H in protection.

Ray/Lou - Calls by QB at L.O.S. to determine the 4 man side.

Red Zone - Plus 25 to Plus 4 yard line.

Red Ball - Our no huddle offense, not a hurry up situation.

Rock - TE in protection.

Rub - Offensive player bumping a defender upfield while completing his route. Also a pass pattern run by two WR's.

Sally - Screen left.

Sarah - Screen right.

Scoop - Backside guard and tackle combo on a DT to a backside LB.

Separate - Depending on route called, you should be in a position to separate from the defensive back. Go get the ball.

Sift - Technique used on the backside by a T.E. or tackle to block on outside aligned def. end, then working to the next level folding OLB or strong safety.

Sight Adjust - Designated receiver on the split end side who must look for the quick pass when a corner, or 4th defender blitz from that side.

Slide - 6 man protection called to the strength of formation. Playside off. lineman have "Big" on "Big" responsibility. We will slide weak from the 1st call side uncovered off. lineman (center or guard).

Smoke - Aggressive 3 step drop turn protection called to the strength of the formation.

Sort - Backside slide protection call used by the center, guard, and tackle to indication that there are 4 potential rushers.

Speed Cut - Push vertical and break hard gaining ground slightly. Run through the break.

Split - Width of alignment of receiver, OL or TE from nearest offensive player.

Split End - Refers to wide receiver away from Y (X).

Stem - Receivers path or stem, as in come back down the stem. Also stem route (5).

Strong Side - Side on L.O.S. towards the Y for runs. The side with 2 or more WR's in the passing

game.

Tag - Playside tackle and guard double combo on a DT to a playside LB.

Talking - You/Me calls used by the OL and TE/H to determine who has the inside and outside rushers in pass protection.

Ted - TE down block to a 7 or 8 technique with a tackle lead pull to a linebacker.

Tim - TE and tackle combo on a DE to a LB inside the TE.

Tom - TE and tackle combo on a DE to a LB outside the TE.

Trey - T.E. and tackle playside double team vs a DE to a backside LB. Also formation.

Turn (Rip/Liz) - Sprint out pass protection in which each off. lineman and TE is responsible for a BS gap away from the sprint out direction call.

Vice - Used to identify TE tightly covered and man in attack position outside.

Weak Side - Side on L.O.S. away from the Y for runs.

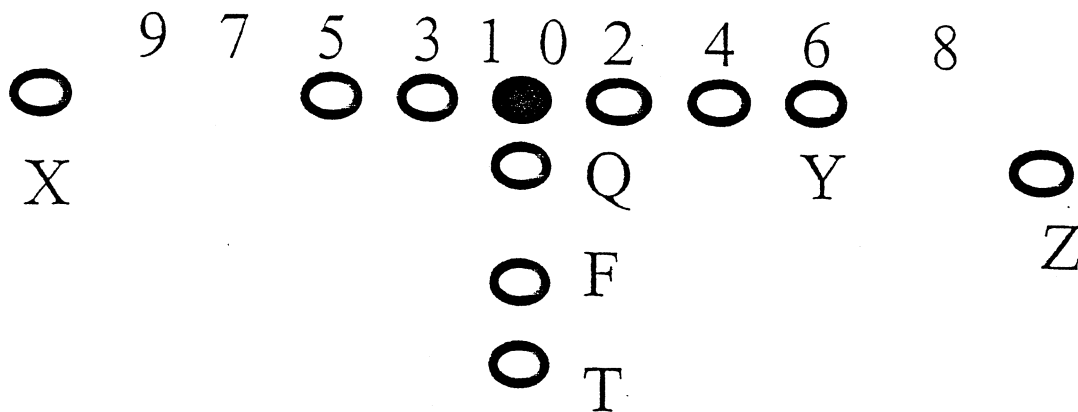

You/Me - Pass protection call by two adjacent off. lineman declaring responsibility for a LB.

OFFENSIVE PROCEDURE

2001 BRONCO FOOTBALL

Hole Numbering and Position Identification

I. Numbering System

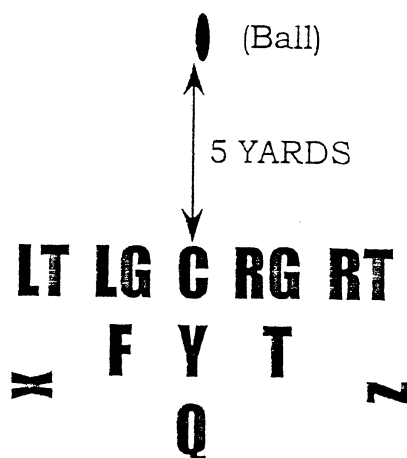

- A. The numbering system is based upon assigning a number to the space occupied by the offensive linemen and tight end(s.)
- B. Holes to the right of the center are even (0, 2, 4, 6, 8.)
- C. Holes to the left of the center are odd (1, 3, 5, 7, 9.)

II. Position Identification

- A. Our linemen are referred to as Right Guard and Tackle, Left Guard and Tackle, and Center.
- B. Our running backs are referred to as **Fullback**, known as “**3**” in the running game and “**F**” in the passing game and **Tailback**, designated “**2**” in the running game and “**T**” in the passing game.
- C. The **quarterback** is the number “**1**” and the letter “**Q**.”
- D. The **split end** is “**X**,” the **flanker** is “**Z**,” and the **tight end** is “**Y**.”
- E. The **second tight end** or **third wide receiver** is referred to as “**H**” when replacing X/T/F.

Line of Scrimmage Procedures

III. Huddle Formation

- A. The center forms the huddle with his heels at five yards facing away from the football. Everyone must hustle into the huddle as soon as possible to avoid problems with the play clock. Do your resting in the huddle, not on your way to it.
- B. The linemen will form a wall at five yards standing up and facing the QB. The receivers, backs, and tight ends will form the front row, with the X and Z receivers forming a tunnel on the ends. Stay in the huddle until someone replaces you!

IV. Huddle Procedure

- A. The center will put his hands above his head and give the command "Huddle." The offensive personnel will then take their positions in the huddle.
- B. When the QB enters the huddle, all eyes are focused on him.
- C. The QB will do ALL the talking in the huddle. Any information that can be helpful should be relayed to the QB outside the huddle or through coaches on the sideline.
- D. The QB will call the formation, play, and snap count.
- E. If you don't hear the call, call "CHECK"; QB will repeat call.

F. The huddle call sequence is as follows:

1. Movement/Strategy (Shift, Gun, Freeze)
2. Backfield Set (Far, Change, Strong)
3. Formation (Double, Deuce, Ace)
4. Strength (Right/Left)
5. WR Variations (Slot, On, Tight)
6. Motion (Zing, X, Hoof)
7. Play (22 Zone)

****NOTE:** We will align in the formation called and motion out of the formation.
(Examples in formation section.)

a. Run (2 digits)

1. Hole (22)

2. Tag term indicating blocking scheme (Zone)

b. Pass

1. Protection and direction (Slide RT)

2. Digits and/or tag words(s) (989/Flood)

5. Snap count

6. Ready... Break (Clap hands on break.)

Example Run:

Far
Right
Slot
22 Zone
On one

"Ready" - Break

Example Pass:

Shift
Trio
Right
Smoke Left

11

On one

"Ready" - Break

BREAKING THE HUDDLE:

All players will hustle to the LOS and assume their positions in a minimum amount of time.

REMEMBER: We only have 25 seconds to snap the ball after the ball is ready for play.

"LINE UP IN IT": If we have a motion or a shift called, and 8 seconds or less is left on the 25 second clock, the QB will yell "Line Up In It". All players will quickly align to the position they would have assumed after their motion or shift.

PROCEDURE AT THE LOS:

If shifting, designated players will come to the LOS in a formation other than the one called in the huddle.

All players assume their positions immediately (Y stay in 2-point when shifting.)

If a "gun" formation is used, the line shall play out of a two-point (also by designated play or game plan situation.)

Motion is initiated by the QB's heel, the nod of his head, or in relationship to the snap count.

Cadence

The cadence is a combination of words and numbers used in a non-rhythmic count. The cadence must be used as a weapon by the offensive team. The QB can NEVER allow the defense to time our cadence.

A. Our cadence will be:

Front call - alerts team as to what type of front we are facing

Set

Color - Number - Dummy calls unless "Live" color (Green/Blue) is used to change play

Color - Number - QB should use 20s, 12/13 as dummy calls often

Hut (non-rhythmic)

Hut (non-rhythmic)

B. Our possible starting counts will be on:

Set - Lou-Set

One - Hut

Two - Hut - Hut (used on all checks/chooses and alerts)

Freeze - Hut - Hut - Hut - Hut, Hut, Hut . . . Set, Hut

C. Freeze:

A "Freeze" count will be used when we are deliberately trying to draw the defense offsides. The QB will proceed through his cadence and use as many "huts" as he feels is necessary to get the defense offsides. The only 2 players that should be "keyed-up" are the QB and Center. All other players should be in good looking stances, but relaxed. If a D-lineman jumps offside, the Center should snap the ball and the QB should quickly take a knee. If no defensive player jumps offside after 5 or 6 "huts", the QB will pause and then say "set, hut" and we will then run the play called in the huddle.

D. 1 Bob: Is a silent count that will be used when we are having trouble hearing the QB's cadence. It will primarily be used in Shot Gun, but can be used from under the Center as well. The QB will lift his foot (in the gun) or pat Center's butt (direct snap). The Center will look through his leg to see QB lift his foot and then will look up at the D-line, pause one second, then snap the ball.

E. 2 Bob: Is the same concept as 1 Bob, but now Center will look through his legs and bob his head twice (instead of once) and then snap the ball.

F. No snap

QB may call formation and "no snap." This alerts team that we will attempt to draw the defense offside. If we are unsuccessful the QB will be instructed to either use a time out or take the delay penalty. We will not snap the ball under any circumstance.

Automatic/Check Off - Two Play Offense

We will have several ways to get into another play at the LOS. These will be tied into our snap count, as well as not allowing the defense to catch on to what we are doing.

A. Live Colors

1. Green - used as live audible only. Snap count is on one (Possible "Easy" call for quick count plays.)
2. Blue - used on all checks and alerts. Snap count automatically is 2.

B. Live Audibles

- 12/13 - directional number for any pass play
- 16/17 - Speed Option
- 20/21 or 30/31 - Trap
- 22/23 - Zone unless prefaced by: "Wham, Rim, Slice, Iso, Blast, or Paint"
- 24/25 - Power unless preface by: "Bull, Counter"
- 26/27 - Stretch

C. We will automatic or check our offense in the following ways:

1. Color system/live audible - will be used if the QB has not alerted the team in the huddle. All "Live Audibles" are on 1.

EX: in the huddle QB calls 24 Power on "1"; at the LOS the QB calls "Lou, Set, Green 26, Green 26," the play will be 26 Stretch on "1."

2. "Alert" at the LOS-This is used to take advantage of defensive team's alignment and allows us to choose between two different plays. All "Alerts" are on 2.

EX: In the huddle QB calls "26 Stretch, Alert 17 Speed" on "2." At the line the QB calls "Ray, Set, Blue 17, Blue 17, Hut, Hut." Play will be 17 Speed Option.

3. "Check with Me" - This is used to take advantage of defensive team's alignment to choose between the same type of play (Run to run, Pass to pass.) All "Checks" are on 2.

EX: In the huddle QB calls "Check Zone on two." At the LOS the QB calls "Ray, Set, Blue 22, Blue 22, Hut, Hut." Play will be 22 Zone on 2.

4. "Choose Package" - package of 3 plays, usually 2 runs and 1 pass. All "Chooses" are on 2.

EX: In the huddle QB calls "Choose Stretch Package" (26/27 Stretch, 16/17 Speed, or Smoke R/L 11); At the LOS QB says "Blue 12, Blue 12," the play is Smoke Right 11 on 2.

*NOTE - 12/13 is used as the directional for all pass plays.

*NOTE - The QB will always turn head to the play side first... this will help to allow callside OL to make calls, combat crowd noise, etc.

RED BALL / GAME ENDING SITUATIONS

2001 BRONCO FOOTBALL

Red Ball

Red Ball as a No Huddle Offense

NOTE: This is **not** a "hurry up" situation.

1. QB calls out "Red Ball, Red Ball," and gives a Formation call ""Trio Right" or "Trio Left"

- a. Offense alerted to no huddle situation. Align at LOS.
- b. Base formation is Trio to the field, but can vary by game plan.
- c. Snap count is always on "Set, Hut" (No dummy calls.)
- d. Receivers must start inside the tick mark, then expand to final split depending on play (by rule.)
- e. Center read defense for front call.

2. QB will look to the sideline for play call, or make the call himself based on the game plan.

- a. Call out entire play call to each side of formation. (I.e. "Slide 12 Streak, Slide 12 Streak)
- b. Front call
- c. Begin snap count with "Set," followed by a short pause, "Hut," ball is snapped

3. EXAMPLES: (QB LOS call = Play)

- a. Dropback Passes
 - Smoke 12, 11 = Smoke Right 11
 - Otto 13, Flood = Otto Left Flood
 - Slide 12, Streak Z = Slide Right Streak Z
- b. Screens
 - Bob 12 = Bob Right
 - Base 13 Sally = Base Left Sally
 - Dual 12 = Dual Screen Right
- c. Action Pass
 - Sprint 12, Cobb = Sprint Right Cobb
 - Sprint 13, Smash = Sprint Left Smash
- d. Runs
 - Any term 16 = 16 Speed Option
 - Any term 23 = 23 Zone
 - Zack 23 = 23 Zack
 - Any term 24 = 24 Counter
 - Bull 24 = 24 Bull
 - Any term 27 = 27 Stretch
 - Ted 27 = 27 Ted
 - Blast 22 = 22 Blast

NOTE: When 12/13 is used, first word is "live."

NOTE: QB must allow sufficient time for OL to make appropriate calls and WR to get set for one full count before snapping football. (Center responsible to make front call.)

NOTE: QB will again make the call to the play side first to aid communication and combat crowd noise, etc. QB will use hand signals to aid the WR if needed.

NOTE: Signal for RED BALL is arms forming a circle over the top of head.

TWO MINUTE OFFENSE

"Clutch Series"

One of the most important parts of a football game is the two minute period just prior to the completion of each half. Many games are won and/or lost during this vital time period. It is not only imperative for the QB to know when time is legally out, and whether the clock starts with the snap or the referee's signal, but each player on the field should also know. It is essential that we do not waste a time out prior to this period, and use whatever time outs available very wisely.

This time period may give us the opportunity to go into half-time with either a score or psychological advantage. Field position, remaining time, down and distance, and the score are all factors that must be taken into account before assessing the two minute offense.

The following points are important and should be noted during the two minute period. This is the same procedure as RED BALL, except that we are now trying to save time:

1. It is the responsibility of the QB to know how much time is remaining. It is important to know how many time outs you have remaining.
2. The clock is not started after a score until the KO is legally touched. The clock does not start on a change of possession until the ball is snapped.
3. A time out in excess of three is a foul unless for an injured player, who must be removed from the game. Time continues at the referee's signal. Excessive time outs bear a 5-yard penalty, and the clock starts with the referee's signal. You can call a time out immediately after a time out without a snap.
4. Officials will notify the Captain and Coach of the number of time outs remaining.
5. Automatic time granted upon Captain's request for measurements of first down yardage or injury, will not be charged against the legal three time outs. Clock starts on the referee's signal.
6. When all ball carriers are tackled from the hash mark to the sideline, they will run the ball to the hash mark and/or give it to the nearest official.

Controlling the clock is vital at this time. If you are ahead, you want the clock to keep running, and if you are behind, you want the clock to be stopped on every play, and in every way possible. It is the responsibility of the signal caller to control the clock and to keep the rest of the team advised. It is important that the team know what is expected and how we intend to execute our plan.

Champions are people who can do their best in emergencies which unnerve the ordinary player. The "Clutch" offense requires poise, hustle, proper execution, confidence, communication, and the ability of a team or individual to make the critical run or pass go all the way. The perfect utilization of this offense has an important bearing on the final outcome of any contest.

"Clutch as a Catch-Up Offense"

In the "Clutch" offense, other than in the huddle, all plays should be called from audibles on the LOS. The QB should always check sideline for play signal.

While in this offense, time becomes our opponent, therefore, we will eliminate motion and shifting to conserve valuable time.

It should be noted that when the QB calls an audible, the backs must shift in to the appropriate alignment. Linemen will be down in a three point stance for run and a two point stance for pass.

1. 2:00 to 1:00 remaining:

- a. Emphasis must be placed on hustle, poise, execution, communication, and confidence.
- b. Do not call time out unless absolutely necessary.
- c. All plays must be executed in 15 seconds or less.
- d. Ball carriers and receivers should try to get as much positive yardage as possible after making the first down (clock will stop.)
- e. No timeouts except after a sack.

2. Less than 1:00:

- a. Utilize time outs.
- b. Stop clock whenever possible. Ball carriers must get out of bounds.
- c. Use quick pass and sprint out series.
- d. NO sacks!

3. "Spike Play":

- a. Used to stop the clock when we are out of, or don't want to call timeout
- b. QB calls "Spike" to both sides of the ball.
- c. OL/TE assume tight splits and protect inside gaps. NO penetration.
- d. All TE/WR align quickly on the LOS and do not release downfield.
- e. QB take 1 step back & immediately spike the ball forward to stop the clock. Eyes must remain down.
- f. Ball must not touch a lineman on the way down.

When the clock stops, the QB will signal and yell "Huddle" and we will call our plays in the huddle. When the plays are called in the huddle, we will have the ability to use the entire system including regular snap count. When the clock is not stopped, we will call the plays on the LOS using our no-huddle cadence the same as in RED BALL. The ball will be snapped on the "HUT" command. For example, "Sprint 12 Cobb, Sprint 12 Cobb, Set, Hut."

The Clock is stopped and we will huddle when:

- Officials time out
- Players time out
- Incomplete pass
- Ball carrier out of bounds
- Injury
- Change of Possession

The clocks stop but we will align on LOS:

- Markoff of all penalties
- Measurement for a first down
- Resetting the chains after a first down

The clock starts when:

- The ball is legally touched on a KO
- The ball is snapped
- Referee's whistle indicating ready-for-play after:
- First down measurement, chains set, administering a penalty

Four Minute Offense

In "Four Minute Offense" we want the clock to run, however, we still need to make at least one first down. The QB will receive the play call later than normal from the sideline (after official has marked the ball ready for play.) QB will hold team at LOS while watching the 25 second clock and not snap the ball until play clock is inside three seconds.

KEEP CLOCK RUNNING:

- Stay in bounds
- NO time out calls
- Use all of 25 second clock
- Ball carrier stay on the ground and make official take ball from you
- Do not ask for measurement on 1st or 2nd down
- No foolish penalties (be prepared for cheap shots)
- Injured players get off the field on their own
- Use a simple snap count
- Make sure of all ball handing
- Be prepared for stunts and blitzes
- Remember that one first down will usually win the game

Victory Offense

When we are in a situation where we are leading or want to kill the clock with less than 2 minutes remaining in the game or half (depending on field position and number of time outs remaining by our opponent) we will call "Victory." This call will serve as both the formation and the play call. Victory formation has no strength call; thus remains constant (see diagram.)

Victory:

- Lineman, Y, and H, cut splits to foot-to-foot and execute wedge blocking. Pre-align in 3-point stance.
- T and F align one yard deep behind guards and serve as personal protectors for QB
- Z align directly behind QB at 10 yards. Serve as the safety man.
- QB will secure snap then drop 1-3 yards and touch one knee down; thus downing the ball. QB then gets up quickly and hands the ball directly to the referee.

NOTE: Remember that the defense may advance a fumble!

QB reminders in Victory:

- Use all of the 25 second clock
- Take delay of game penalty after each snap if clock remains running.

- JAX group

ALIGNMENTS / GROUPS / FORMATIONS

2001 BRONCO FOOTBALL

Substitution Group Terminology

BRONCOS - regular personnel - 2 WRs, 1 TE, 2 RBs

Quick Bronco - same as above, but another TB for the FB is substituted.

Signal: Both fists together extended in front of body.

CHIEFS - Z and FB out, 2 TEs in (H & Z) - 1 WR (X), 3 TEs (Y, H, Z) and a TB.

Signal: Palm over mouth.

COWBOYS - Y out, WR in (Y) - 3 WRs, 0 TE, 2 RBs

Signal: Six shooters with both hands.

***FALCONS** - FB out, WR in (H) - 3 WRs, 1 TE, 1 TB

Signal: Both fists in air with arms at 90 degree angles.

***FINS** - FB out, TE in (H) - 2 WRs, 2 TEs, 1 TB

Signal: Straight hand, extended out on top of forehead.

GIANTS - X and Z out, 2 TEs in (H and Z) - 0 WRs, 3 TEs, 2 RBs

Signal: Both arms flexed downward.

JAX - X out, TE in (H) - 1 WR (Z), 2 TEs, 2 RBs

Signal: Open hand, shaking up in the air.

***JETS** - FB and TE out, 2 WRs in (H and Y) - 4 WRs, 0 TE, 1 TB

Signals: Both arms extended outward.

ZEBRA - Z out, TE in (H) - 1 WR (X), 2 TEs, 2 RBs

Signal: Drawing stripes down chest.

***NOTE:** The word "**BIG**" may be inserted in front of **Falcons**, **Jets**, or **Fins** to insert a Fullback for the Tailback.

Motion Terminology

Z Motion:

- ZIP - Z inside toward the ball. Short motion. Leave on 2nd color.
- ZOOM - Z over the ball. Long motion. Leave on 1st color.
- ZING - Z over the ball to wing position. Leave on 1st number.
- Full - Z will start in backfield then motion to his alignment. Leave on 1st number.

H Motion:

- HOOF - H across the formation to same alignment on opposite side. Leave on 1st color or 1st number depending on how far you have to go.
- BANG - Short motion after the 2nd color-number (wham play)
- SEAL - Motion to the Backside Tackle and cut off the 1st man outside the T.

Y Motion:

- FLY - Y across the formation to same alignment on opposite side. Leave on 1st number.

T Motion:

- TEAR - TB motion right (let play be guide as to when you leave.)
- TAIL - TB motion left (let play be guide as to when you leave.)

F Motion:

- FIRE - FB motion right (let play be guide as to when you leave.)
- FLAME - FB motion left (let play be guide as to when you leave.)

****NOTE:** All motion snap counts are on one!

****NOTE:** It is the motion man's responsibility to get where he needs to be when the ball is snapped. The QB will try to help. Motion should be at a crisp pace (3/4 speed.)

It is OK to turn shoulders toward the LOS and shuffle after crossing the center.

****NOTE:** The term "FAKE" can be added to any motion. This tells the motion man to cross the center to the offside "A" gap, then reverse himself to original alignment.

i.e. Trips Rt Fake Fly:

Shift Procedures

1. SHIFT - Y trades sides of formation
(I.e., Shift Split Right)

2. STEM - (H) adjust inside-out or outside-in on the same side of formation.
(I.e., Double to Doc, Stem Doc Right) 'Stem' is never used by itself.

3. MOVE - Combination shift (Y) and stem (H.) Also, WRs may also stem.
(I.e., Move Double Right)

4. HOP - H trades sides of formation.
(I.e., Hop Trey Right)

5. SHOP - Combination of a shift (Y) and a hop (H.)
(I.e., Shop Trey Right)

6. SCATTER - Pre-determined game plan shift where multiple shifts are made.
(I.e., Scatter Double Right)

7. OUT - Formation in which TB pre-aligns at an outside wide receiver position based on game plan (I.e., Trey Right Out).

*BUMP - Same as OUT, only TB will start in backfield and shift to WR position.

*BOUNCE - Z will start aligned in backfield and will shift to his position.

NOTES:

All shifts will be executed on the front call and carried out within a silent 3 count.

- Motion can be added to the end of any shift.
- The in line TE should not put his hand on the ground.
- The TE is responsible for making sure the receiver is on/off the LOS when necessary.
- WR adjust on/off LOS by vision of TE on your side.

Wide Receiver Alignments

- A. Slot - Refers to both the X and Z aligning opposite of the Rt/Lt call. The Z aligns as the inside receiver off the LOS and splits the difference between the tackle and X. The X receiver aligns on the LOS. For some route combinations, the X and Z will "**flop**" with the Z aligning on the LOS and the X off the ball. This can be done at any time to put us in the most advantageous position by specific play.
- B. Tandem Same as Slot, except X and Z switch alignments - X inside and Z outside.
- C. Stack X and Z both go opposite the Rt/Lt call with Z aligning directly behind X.
- D. North - Both X and Z align to the right with the Z as the inside receiver and X as the outside receiver with both off the ball (will be used with "Deuce.")
NOTE: 'Zip to North' would start Z outside of X and short motion inside.
- E. South - Both X and Z align to the left with the Z as the inside receiver and X as the outside receiver with both off the ball (will be used with "Deuce.")
- F. Deuce - Term used with two tight formations. If simply "Right/Left Deuce," Z will align to the call side with X opposite. Both will be off the ball.

NOTE: Term 'deuce' always indicates both WR off the LOS.
- G. East - X and Z align to the right side in a Slot alignment. Will be used with unbalanced formations. (X on LOS, Z off LOS)
- H. West - X and Z align to the left side in a Slot alignment. Will be used with unbalanced formations. (X on LOS, Z off LOS)
- I. Tite - Refers to the X receiver aligning on the LOS with a split of 1 yard from the tackle just like a TE, opposite of the call side.
- J. Squeeze -X = 5 yds from OT. Z split by play.

NOTE: Receivers must memorize what terms put them on/off LOS and/or on the same side of formation.

- Both receivers off LOS
 - Deuce
 - North/South
- Both receivers on LOS
 - Fly (Y motion)
 - Trips
 - Open
- Both receivers on same side of formation
 - Slot/Tandem
 - North/South
 - East/West

Running Back Alignments

- A. I
1. FB - Foot to Foot on Center, 3-point stance, toes 5 yards from nose of ball.
 2. TB - Foot to foot on Fullback, 2-point stance, toes 7 yards from nose of ball.
- B. Split
1. FB - Align so that the inside foot of the Strongside Tackle splits you down the middle; 3-point stance, toes 5 yards from the nose of the ball.
 2. TB - Align so the inside foot of the Weakside Tackle splits you down the middle, 3-point stance, toes 5 yards from the nose of the ball.
- C. Change
1. FB - Same as split, except FB goes to weakside
 2. TB - Same as split, except Tb goes to strongside
- D. Weak
1. FB - Same as Change to weakside
 2. TB - In 'Q' Alignment
- E. Strong
1. FB - Same as Split to strongside
 2. TB - In 'Q' Alignment
- F. Far
1. FB - Same as Split, but away from TE
 2. TB - Align in the "I"
- G. Near
1. FB - Same as Split
 2. TB Align in the "I"
- NOTE: The alignments above are general split alignments. At times the play will call for the backs to align in an adjusted position to better aid the structure of the play.
- H. Doc
1. FB - In "Doc" alignment, 1 yard off, 1 yard wide of weak tackle
 2. TB - In "Q" alignment
- I. Trey
1. FB - In "Trey" alignment, 1 yard off, 1 yard wide of tight end
 2. TB - In "Q" alignment
- J. Deuce (or "Single/Q" alignment):
1. FB/TB - Align foot-to-foot on Center, 2-point stance, toes at seven
- K. Out
1. TB - Formation in which TB pre-aligns out of the backfield to an outside wide receiver position based on game plan (I.e., Trey Right Out).
- L. Bump
1. TB - Formation in which TB shifts out of the backfield to an outside wide receiver position based on game plan (I.e., Bump Slot Right)

NOTE: Term "flip" can be added to any formation to allow RBs to flip/trade alignments and assignments (I.e. Trey Rt Flip, TB in Trey, FB in Q.)

Y Alignments

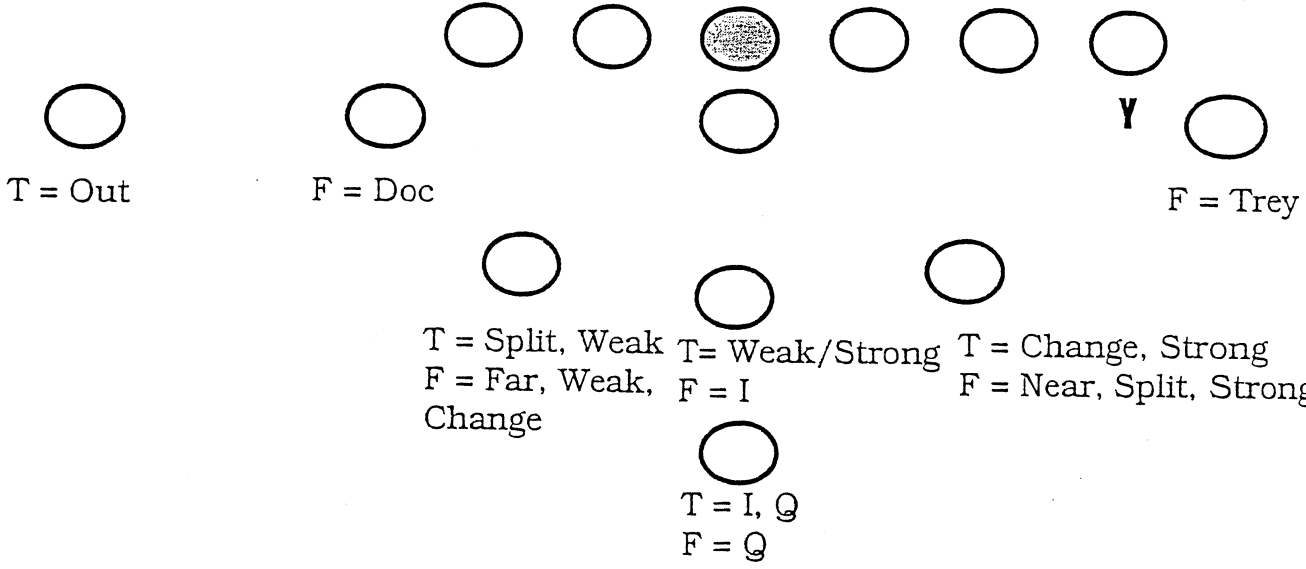

- A. YO - Align 1 yard behind the LOS and 1 yard wide at the tackle to the call side
This can be used in conjunction with any formation when Y normally is on LOS. Fly motion is an automatic YO.
- B. OPEN - On or off ball depending on route play. Split the difference between the tackle and Z to the call side
- C. TRUMP - Align in a YO position to call side
- D. TRIPS - Align in a YO position to call side
- E. FLEX - Align on the ball, approximately five yards from the tackle (split will depend on the play called).
- F. TOY - TE align as outside receiver to the strong (call) side.

NOTE: It is the Tight End's responsibility to check with the outside receiver to make sure they are on/off the LOS whenever Y is in a YO position or whenever TE is shifting.

H Alignments

- A. TREY - align 1 yard away and 1 yard deep from the TE, toward the call
- B. DOC - align 1 yard away and 1 yard deep from the weakside tackle
- C. TRIO - align off the LOS, splitting the difference between the Z and the TE
- D. DOUBLE - align off the LOS, splitting the difference between X and the weakside tackle
- E. DEUCE - align on the LOS opposite of the call with a "normal" split from the tackle
- F. TRUMP - align on the LOS with approx. 3-5 yard split from the tackle to the call side. The Y will be off the ball between the tackle and the H.
- G. TRIPS - align in normal Trey alignment. Y will be off the LOS.
- H. TRIPLE - align off the LOS, splitting the difference between the TE and the Z to the call side (trio)
- I. OPEN - align off the LOS, splitting the difference between the tackle and Z to the call side.
- J. SQUEEZE - align on/off the LOS by play, 3 yds from OT.

DEFENSIVE IDENTIFICATION

2001 BRONCO FOOTBALL

Defensive Identification

DEFENSIVE ALIGNMENT AND GAP DESIGNATION

Techniques will be designated by using a number system. A "head-up" alignment on the center is defined as a "0." Shades on the center will be called simply "Shade Strong or Shade Weak." A "1" technique is an inside eye relationship by the defensive tackle on the guard, a "2" technique is a head-up alignment on the guard, and a "3" technique is an outside eye alignment on the guard. This continues in a systematic fashion down the line.

A "loose" technique refers to the defensive player being aligned with his inside foot on the offensive lineman's outside foot, while a "gap" player is squarely aligned within a gap.

Gaps are designated by letters... the Center-Guard gaps are "A" gaps, G-T gaps are "B" gaps, T-TE gaps are "C" gaps, and the gap outside the tight ends are "D" gaps.

DEFENSIVE PERSONNEL RECOGNITION

In a "four down" defensive scheme, the inside two defensive down players will be referred to as "tackles" (T) while the outside two down players will be referred to as "ends" (E.)

In a "three down" defensive scheme, the defender aligned over the center will be termed the "nose guard" (N) and the remaining two down players will be "ends."

Defensive Recognition

We will refer to the Linebackers in the following way:

- Mike (M) - The Middle linebacker in a 4-3 scheme or the Weak Inside backer in a 4-4 and an Odd scheme.
- Sam (S) - The strongside outside backer in a 4-3 and an Odd scheme or the strongside inside backer in a 4-4 scheme.
- Will (W) - The weakside outside backer.
- Backer (B) - The strongside inside backer in an Odd scheme.

Example: 4-3 Scheme

Example: 4-4 Scheme

Example: Odd Scheme

QB Front Calls

The first word in the cadence will be the QB's identification of the front. There are six possible descriptions:

- Ray/Lou - Right/Left strength indication of the four-man side. If two four-man sides exist, the front call will be made to the offense's weak side.
- Odd - indicates the center being covered and both guards being uncovered.
- Even - indicates the center being covered by a middle backer and both guards covered.
- Bear/Double - indicates a Bear or Double Eagle defense (Bear is an 8 man front, Double is a 7 man front, center and both guards covered.)

Identification of Secondary Coverages

- Cover 0 Blitz coverage, Man to Man with no help and middle open (6 or more rushers.)
- Cover 1 Man coverage with a free safety. Usually 5 man rush, but could be a 4 man rush with a free LB.
- Cover 2 Two deep zone coverage (Can add "Man" indicating two deep, man under.)
Corner Force.
- Cover 3 Three deep zone coverage rolled strong, can be Sky or Cloud force (also
Three Man)
- Cover 4 Quarters coverage, safeties and corners responsible for one-quarter of the
field. Safety force on both sides.
- Cover 5 Three deep zone coverage rolled weak, can be sky or cloud force (same
concept as Cover 3.
- Cover 6 Quarter-Quarter-Half zone coverage. Strongside corner and safety playing
quarters, with weak safety responsible for the deep half (can sometimes be
rolled "weak," called "Six weak.")
- Cover 7 Two deep coverage with three DBs playing over two receivers to the strong
side. Backside corner has the deep half weak (same concept as Cover 2.)
- Cover 8 Man coverage with FS doubling to the strongside, usually out of a nickel look.
- Cover 9 Man coverage with FS doubling to the weakside, usually out of a nickel look.

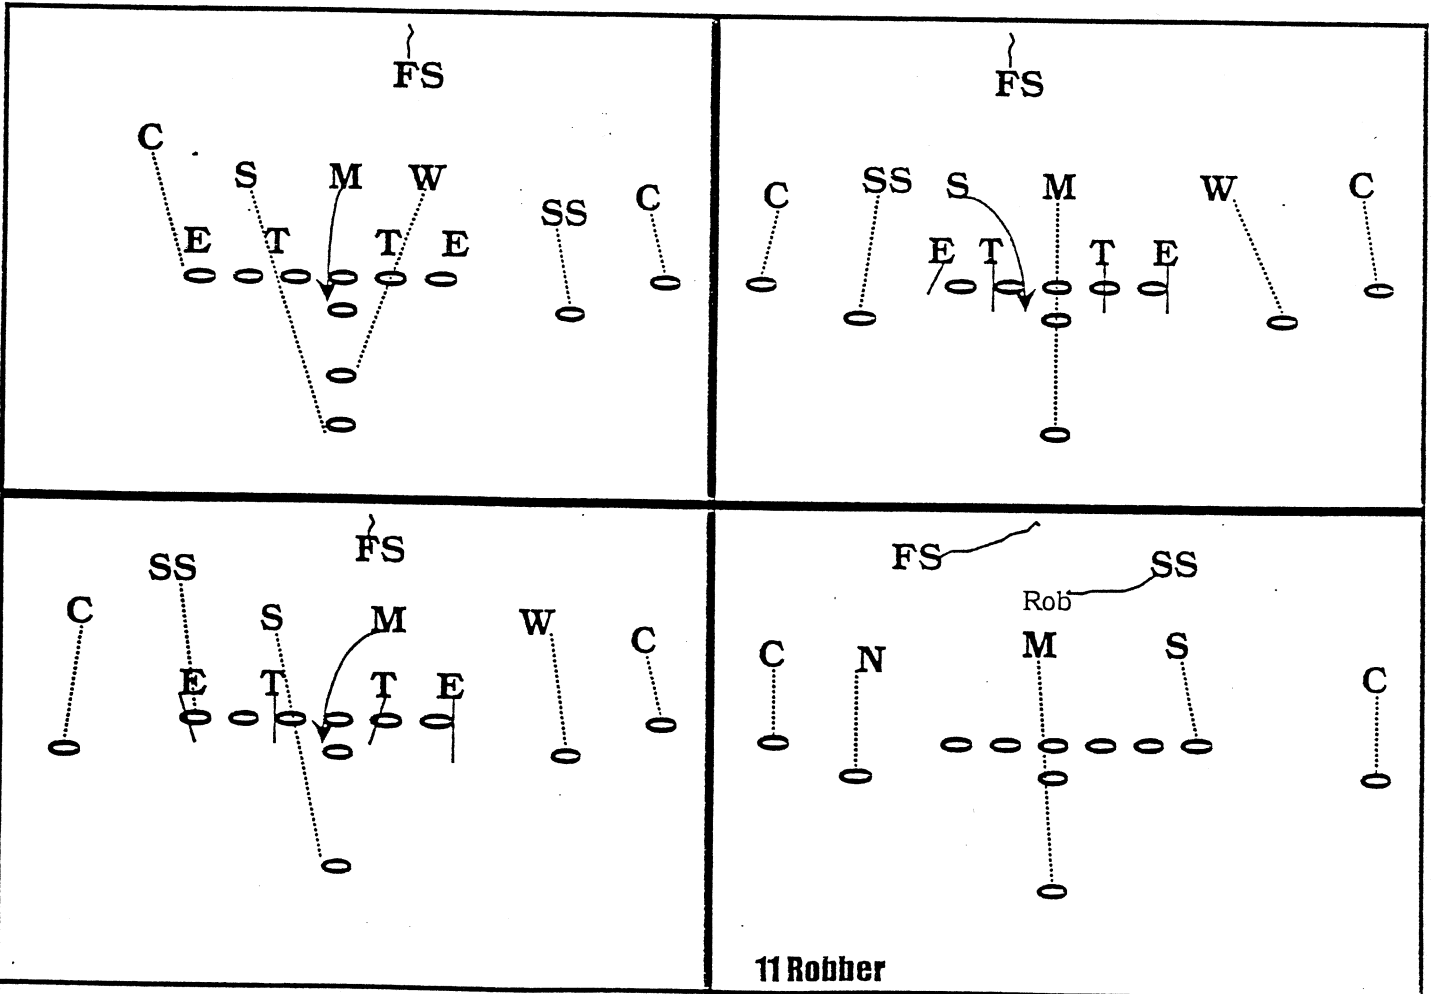

NOTE: Nickel coverages will be double digit calls. Strongside first, then weakside. (Two deep zone on both sides = 22.)

Cover 7

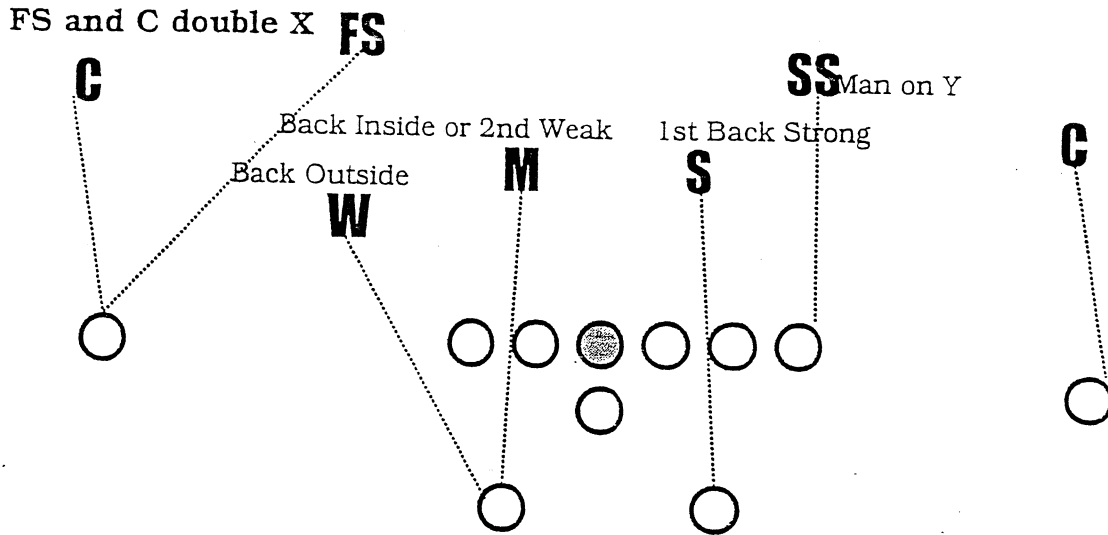

Cover 8

88

Cover 8 is identifiable by a double team by the Free Safety to the strong side. It can be on any receiver, tight end, or back to the strong side. It is still Cover 8 whether the doubler is a corner, a safety, or a linebacker.

Cover 9

Cover 9 is identifiable by a double team by the Free Safety to the weak side. It can be on any receiver, tight end, or back to the weak side. It is still Cover 9 whether the doubler is a corner, a safety, or a linebacker.

Identification of Stunts, Dogs, and Blitzes

A **stunt** is any game involving the down defensive linemen. Some of the more common stunts we will see are:

*Stunts are identified from strong (marked 'S') to weak. Weak stunts (ex. TE, are not marked with any other identification other than which players are stunting.

*A stunt involving defensive linemen dropping is termed a "spy." The lineman will be identified followed by the term "spy." They are usually accompanied by another stunt, a dog, or a blitz (not identified in this section.)

Identification of Stunts, Dogs, and Blitzes - Cont.

A **dog** is a rush by any linebacker. We will identify dogs by calling the position from which he is dogging and identifying the gap to which he is blitzing. When identifying dogs and blitzes, the strongside gaps will remain A, B, C, and D, while the weakside gaps will be X, Y, and Z.

*We will identify some combination dogs with words. If all three backers come, this is termed "ALL." If one backer comes off of each edge, this is termed "JET." If two inside backers dog on the inside, this will be called a "FIRE" followed by the letters of the gaps to which they dog.

Blitzes are any pressures by secondary players and will be identified similarly to dogs. The Free Safety will be called the "FREAK" and the Strong Safety will be called "STORM." If the blitzer is a single blitzer coming off of his edge (FS weak, SS strong,) this will simply be identified by calling the player (first two diagrams.) A corner blitz is a "COWBOY."

Defensive Front Identification

Our fronts will be determined by recognition of 5 basic and balanced fronts. If the front is not balanced it will be recognized by calling the strongside first followed by the weakside. The 5 basic looks to recognize are 30, 40, 60, 80, 50/70.

<p style="text-align: center;">"Even"</p> <p style="text-align: right;">60</p>	

Zone Frontside-TE's & H's

frontside Responsibility: Frontside is essentially a double team with the tackle. Stay on the first level as long as possible. Do not come off until the second level defender penetrates first level. Be alert for "OUT" call vs tight or blitzing 9 technique.

Frontside Technique: Tom (Used with OT vs 7 & 8 technique & second level LB or S)

* Base Drive technique. Gap step with outside foot (6" x 6"), bring second step with inside foot vertical to inside leg of defender. Aim for v of the neck (inside arm pit vs off defender). Think double team and maintain leverage. If LB walks up to LOS on OT-man rules apply.

Frontside Technique: Tim (Used with OT vs Even defense)

Vs Even there is no defender to TOM to. Therefore-TIM. Same technique as TOM. but with inside arm pit aiming point If LB walks up to LOS on OT-man rules apply.

Frontside Technique: Combo (used with TE and H in Trey alignment)

TE must take inside arm pit position and H will take outside arm pit position. Combo first level to second level outside. Stay on first level and think double team. Unless second level attacks

Frontside Technique: Out (used with tight 9 technique (blitz or BEAR))

TE must make "OUT" call to tackle to let the OT know he is on his own. TE must drop step to inside arm pit position and block man.

Frontside Technique: Man (used vs 5 & 9 technique (blitz or BEAR))

Base Drive technique. Same as Tom with inside arm pit aiming point.

40 BOW-Ray/Lou

40-EVEN

40 OVER

BEAR

60 UNDER BOSS

60 BOSS

Zone Backside-TE's. & H's

Backside Responsibility: Backside is the most important. Zone is a cutback play. Must hold the backside, so the running back may cut back through the backside A or B gap. If unable to secure inside position, throw outside flipper under defenders arm pit and push by the backside A or B gap. Play is checked to 1 technique side. Knowing Ray/Lou call helps to determine if sift is needed. If Even-stay on first level

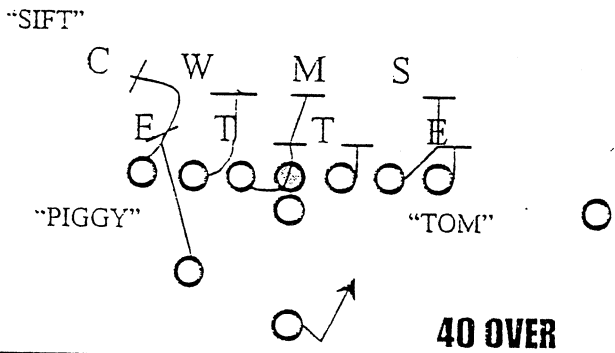

Backside Technique: Cutoff (TE vs 7 or 8 tech, H Swoop, Flexed TE/triple)

Drop step with inside foot, cross over with outside foot, dip outside shoulder to ground and shoot outside elbow through. Sink hips. Get hat on defenders inside arm pit. Regain hands to breast plate. Hinge back outside, Point butt at ball carrier and turn butt as ball carrier moves up, into, and beyond the point of attack

Backside Technique: Sift (used with H Trey Position.)= TE-Sift, H-Swoop

Initial Cutoff Technique. Get outside hand on breast plate and allow H to get inside position. Sift up to second level if Ray/Lou Front call (Cut off second level defender as in cutoff of first level defender).

Backside Technique: Piggy (used with FB on Backside)=TE-Sift

Initial Cutoff Technique. Get outside hand on breast plate and allow FB to get inside position. Sift up to second level if Ray/Lou Front call- (Cutoff second level defender as in cutoff of first level defender)

Backside Technique: Moon (TE vs 5 technique)

Drop step with inside foot, cross over with outside foot, dip outside shoulder to ground and shoot outside elbow through inside arm pit of five technique. Sink hips. Get hat on defenders inside arm pit. Regain hands to breast plate. Hinge back outside. Point butt at ball carrier and turn butt as ball carrier moves up, into, and beyond the point of attack.

48-49 Sweep

TED -TE's & H's

Frontside Responsibility: Base Drive technique. Aiming point is outside arm pit Vs 7 and 8 technique-must gap step outside. Vs 5 technique step with inside foot. In each case, assume the DE will rock outside. Vs 5a and 9 technique-"Man" call. If DE rocks inside- expect inside tackle to loop outside, get to outside arm pit of defender looping outside. DE will usually have gap side foot back in stance.

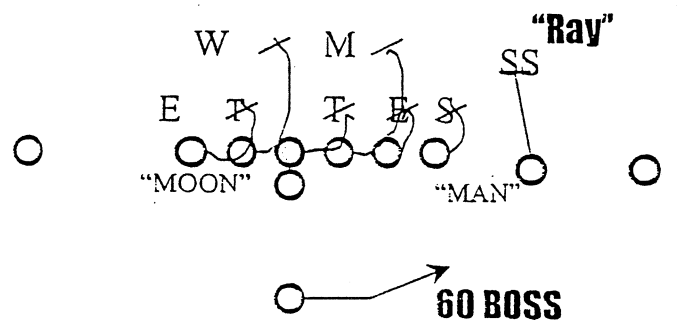

Frontside Technique: Base Drive (TED)
Gap step with outside foot. Second step right at DE. Aiming point outside arm pit. Avoid hopping to position. Vs 5 and 9 technique, make "Man" call. Reach Drive= Gap step, second step to crotch, hands to breast plate. Wide base. Can "Man" if TED is not beneficial. Possible to "TIM" a stacked LB. Vs Even Ted to inside LB, vs ray/lou Ted to outside LB or S

Backside Technique: Sift and Cut
Drop step inside. throw the shoulder through and cross over with outside foot. Get through to second level, cut the backside (there is no cutback). Get the defender off his feet to slow him down for later plays

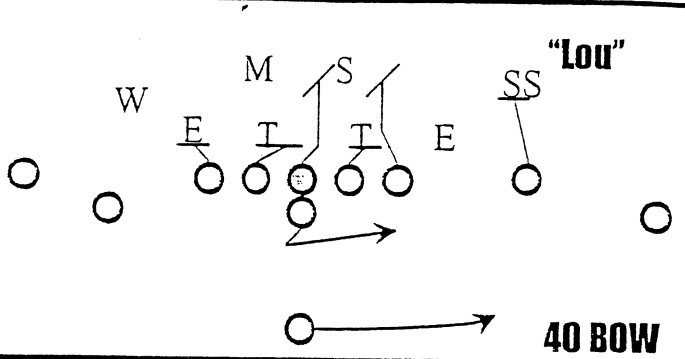

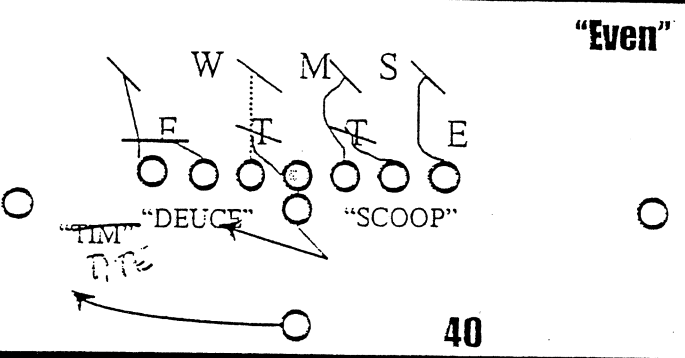

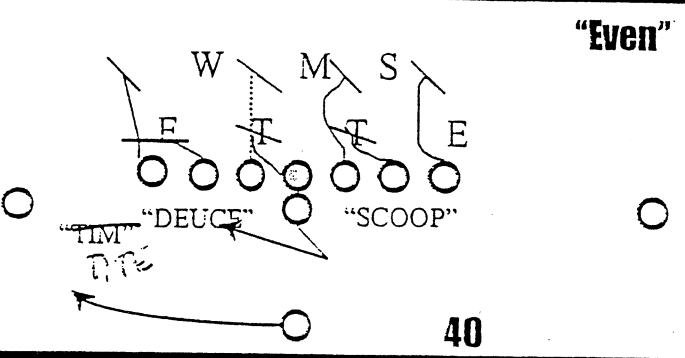

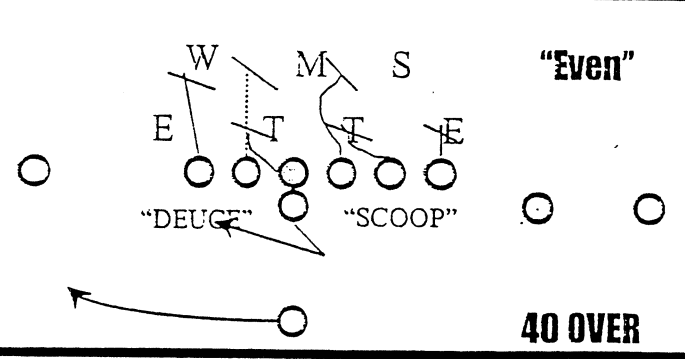

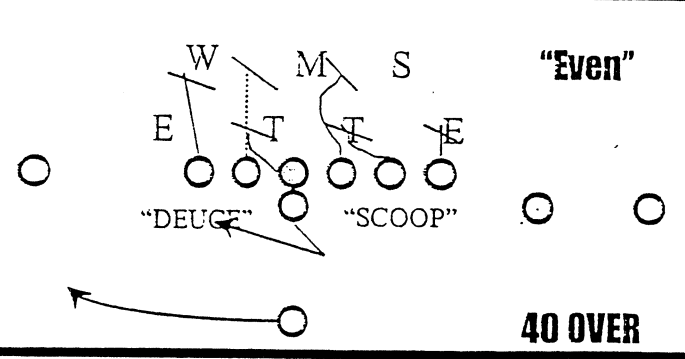

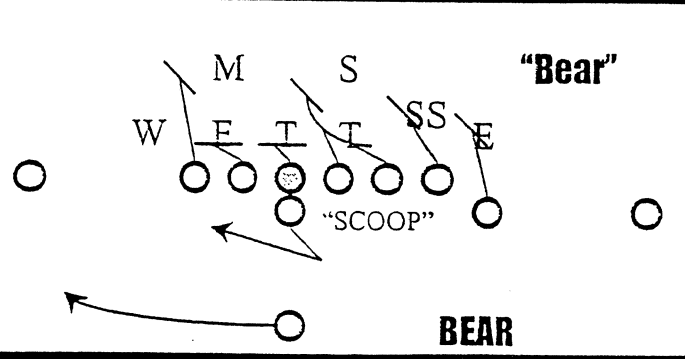

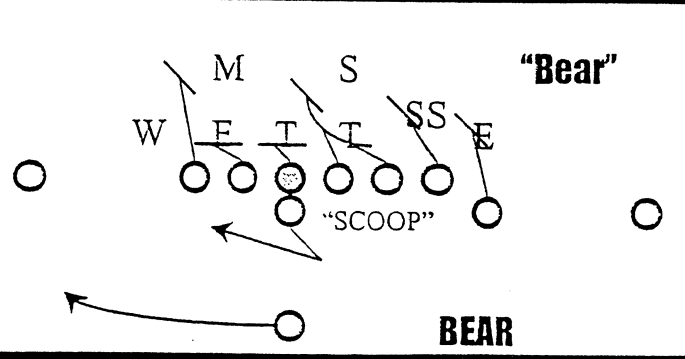

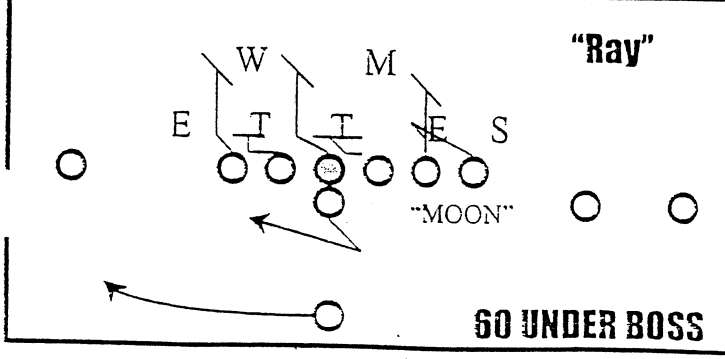

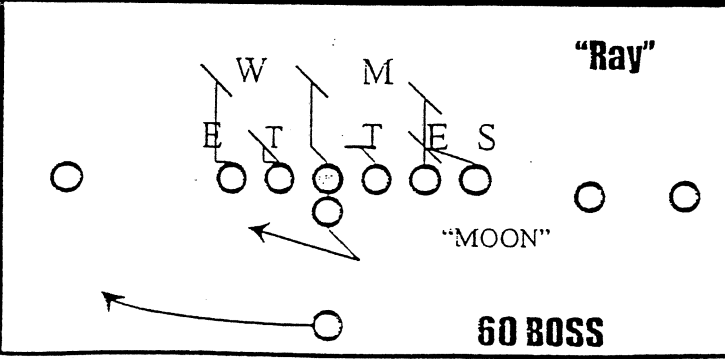

Backside Technique: Moon vs 5 and 9 tech
Drop step inside. crossover, throw elbow through to inside arm pit of 5 technique. Cut 5 technique

16-17 Speed

60 UNDER BOSS		60 BOSS

SPEED -TE's & H's

Frontside Responsibility: SAME AS STRECTCH. TIM with OT. Must anticipate fast scrape by ILB. Get off first level early enough to get to outside arm pit of scraping LB.

Frontside Technique: TIM (W/OT) Gap step with outside foot. Second step to crotch of DE. Aiming point outside arm pit. Throw inside fore arm. Keep shoulders square. If DE rocks outside, get hands to breast plate and take Man. If DE maintains or rocks inside work up to outside arm pit of LB. 3 technique will take longer than vs 7 technique. Vs 7 do not hang on too long. Vs 9 tech must drop step (lose ground to gain ground). Vs 5 and tight 9 must man block. vs 5 and wide 9 TIM to ILB. Vs Bear TIM 8 tech

Frontside Technique: OPEN ALIGNMENT (ie, triple)

Must block first man head up to inside Y's alignment, run off vs man coverage (key defenders eyes focus for man key). If inside LB is assignment, force him to go over the top. Do not allow him to duck under block. Be alert to DE alignment which will determine if tackle can get through to LB. If LB blitzes or disappears, redirect to safety.

Backside Technique: Sift and Cut

Same as Backside rules as TED and STRETCH. Drop step inside, throw the shoulder through and cross over with outside foot. Do not waist time with first level. Get through to second level, cut the backside (there is no cutback). Get the defender off his feet to slow him down for later plays

Backside Technique: Moon vs 5 and 9 tech

Same as backside rules for TED and Speed Drop step inside, crossover, throw elbow through to inside arm pit of 5 technique. Cut 5 technique

<p>QB Open opposite at 5:30/6:30, hand over the top, accelerate into boot.</p>	

BULL-TE & H

Frontside Responsibility: Same frontside rules as power except no trey vs 5 and 9(O call y or h block out to 9 tech) in "O" call arch to 9 tech, do not chip on 7 or 8 tech. Y base rules are Vs 7 or 8 tech- chip to SS/OLB.(must take stacked player if Ray/Lou) vs even arch to SS or CB. vs 9- inside release and seal backside ILB (or MLB in even)if LB disappears inside work to offside LB. When in motion, must bluff five technique before arching out.

Frontside Technique: CHIP (Y vs 7 or 8 tech)
 Similar to REACH DRIVE. Gap step with outside foot. Second step to outside leg of DE. Throw inside fore arm. Keep shoulders square. If DE rocks outside, get hands to breast plate and take Man. If DE maintains or rocks inside work up to inside arm pit of LB or SS. In "O" technique arch out rather than chipping.

Frontside Technique: 9 (Y or H vs 9 tech)
 Make 9 call. Release inside and aim for outside arm pit of backside inside LB vs Ray/Lou- MLB vs Even. Vs flex treat flexed 3 tech as backside LB. Seal LB. If 9 rocks inside across your face lock on and drive him down inside. If LB disappears down inside work to offside LB.

Frontside Technique: Out (y vs Bear)
 Vs Bear make out call. Base Drive to inside arm pit of 9 tech. Keep side

Fuller Technique: Backside LB vs 1 tech
Frontside LB vs 3 tech
 Must read 1 or 3 tech to determine which LB to block and path to LB-be alert to movement either way-must take tight path to LB. With 3 tech get depth to run around. Block SLB (even) or frontside ILB. Vs 1 tech be alert to running around 5 tech on slant inside Block MLB (even) or backside ILB. From Doc or Trey align with depth and drop step. Vs 6 man front if LB is picked up run through to FS

Backside Technique: Hinge vs 7 or 8 and blitzing 9 Moon Hinge vs 5 and 9
 Must hinge to most dangerous defender. Do not allow LB run through. Vs Bear step inside and hinge out for wide 9 penetrations. Vs 5 and 9 Drop step inside, crossover, throw elbow through to inside arm pit of 5 technique work to hinge back out In trey swoop.

The Huddle Call consists of a combination of words and/or words and numbers. The first word is the protection, and the next words/numbers are the route combinations.

The protections:

- Smoke - 3 step quick game, aggressive turn protection
- Base - 5/7 step big on big protection. No hots, sights vs weak Cowboy/Freak
- Hot - 5/7 step base protection rules with one back. Hots/Q's by route structure.
- Otto - 5/7 step 7 man protection. Possible sight based on front call.
- Rip/Liz - full turn pro. No hots/no sights.
- Dash - same rules as sprint with QB breaking contain and both backs protecting strong.
- Slide Pro - 5/7 step 6 man protection. Hot/Qs by route. Sight vs. 4 weak. Back double-read to call side.
- Slam - 3/5 step 5 man slide pro. Built-in Hot/Q and sight by route.
- Play Pass - play action slide protection. Strong fake - 7 man pro with possible sight, weak fake - 8 man pro with no sights. No Qs.
- Max - 8 man slide protection. Same rules as Play Pass
- Dive Pass - play action slide protection strong fake - 1 back protection with same rules as slide.
- Slide Pass - Same as play pass with FB free releasing
- Roll Pass - Aggressive gap hinge protection. Line is responsible for gaps.
- Iso Pass - play action max pro based on turn rules. No hots/no sights.
- Goal Line Pass- play action goal line pass with Iso Pass rules.
- Stretch Pass - Stretch blocking rules, 8 man protection. Can not block 4 weak.
- Boot pro - 6 man pro off of play action by backfield. "Boot" will be preceded in the huddle call by the run play to be faked (e.g., Zone Boot Left)
- Naked - 6 man pro off of play action by backfield. Can be Bull Naked or Stretch Naked.

The second part of the pass play call consists of words/numbers. Numbers indicate the route to be run (see passing trees) while words indicate the route combination to be run. Tag words can also be added to modify routes and/or add the running back routes.

Examples:

- Base Right 383 Spot (Base right is the protection, 383 is the route combination from X, Y, to Z, and Spot is the route the RBs are to run.
- Slide Right Streak (Slide Right is the protection and Streak is the tag word for the route.)

"PLAY PASS"

Based on Slide Rules. 7 man pro. Possible sight weak depending on formation. No "FIVE" call.

PST	Block #2 DL (on-outside) except vs. Bear. Make a "PIN" call vs. Bear and block B gap. (Use jump set.)
PSG	Block #1 DL (May choose to "PIN" a LB in A gap (Be right!) (Use jump set.)
C	BS A gap to LB, poss. "LOCK, SORT, or OUT"
BSG	B gap to LB; poss. "LOCK, SORT, or OUT"
BST	C gap extended, poss. "LOCK, SORT, or OUT"
X	Route by call.
Y/H	Base route middle 3, or by play call. H (Jax): Check #4 if Play Pass away to route.
Z	Route by call.
FB	Power course. Check 2nd LB from inside out, to route. Alert for "PIN" calls.
TB	Blast Fake. Check 1st LB from inside out, middle checkdown. If "PIN" call, dual read inside/out.
QB	Walsh fake blast deep, dropback. Set up behind outside guard.

"SLIDE" Pro. Six-man drop-back protection

PST	Block #2 DL (on-outside), poss. "PIN" from G
PSG	Block #1 DL. May choose to "PIN" a LB in A gap (Be right!)
C	BS A Gap to LB, poss. "LOCK, SORT, or OUT"
BSG	B gap to LB, poss. "LOCK, SORT, or OUT"
BST	C gap extended, poss. "LOCK, SORT, or OUT"
X	Route called. Possible sight in 3x1 set.
Y/H	PS- Route called possible Q off ILB. BS- must check #4 to flag
Z	Route called.
H	Route called. Possible sight in 2x2 set.
TB	Check, release - dual read strong from MLB over. Vs. Bear, read weak to strong.
QB	5/7 drop by route. Q vs 4 strong. Sight vs 4th weak defender blitz. Point at sight blitzer to alert receiver.

PST Block #2 DL (on-outside.) May choose to save the hit on QB vs. LB in B-gap (Be right!)

PSG Block #1 DL. May choose to "PIN" a LB in A gap (Be right!)

C BS A Gap to LB, poss. "LOCK, SORT, or OUT"

BSG B gap to LB, poss. "LOCK, SORT, or OUT"

BST C gap extended, poss. "LOCK, SORT, or OUT"

X Route by call.

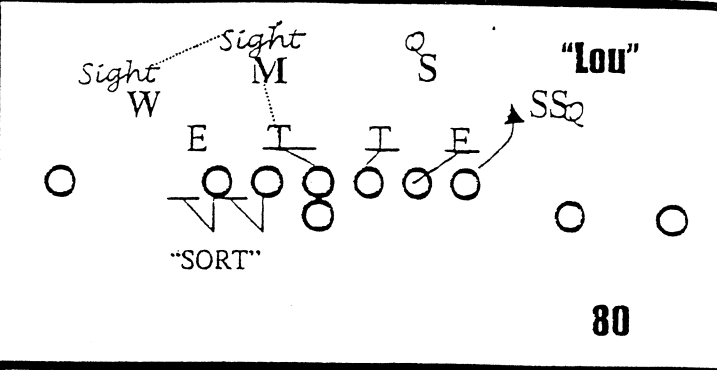

Y/H Route by call. Possible Q or Double Q. If backside-must check #4 to route

Z Route by call.

H Route by call.

TB Route by call.

QB 3/5 step drop. Hot/Q/Sight by route.

Progression:
Vs 2 shell = look side.
Vs 3 shell = 1 side Inside/Out

COMMENTS: Shell read. Locate softest look. Be aware of MLB & work away.

Ace rt Smoke rt Look (Jets)

Progression: Inside/Out

COMMENTS: Full Field. Locate the softest look.

Double rt Smoke rt Look 2 (Falcon)

Progression:
Vs 2 shell = look side.
Vs 3 shell = 2 side Inside/Out

COMMENTS: Shell read.

SMOKE-Fades

BRONCO FOOTBALL

Double rt Smoke rt 99 (Falcon)

Progression: X/H, Z/Y

COMMENTS: Full field. Softest coverage or KYP.

Ace rt Smoke rt 99 (Jets)

Progression: X/H, Z/Y

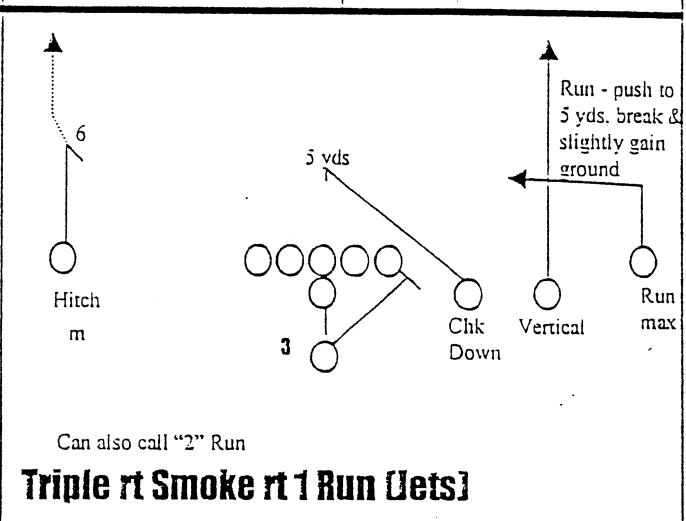

COMMENTS: Full field. Softest coverage or KYP.

Triple rt Smoke rt 19 Mouse (Jets)

Progression: H/Y, X. Can take Z vs Press

COMMENTS: Flat defender read. Take X if singled.

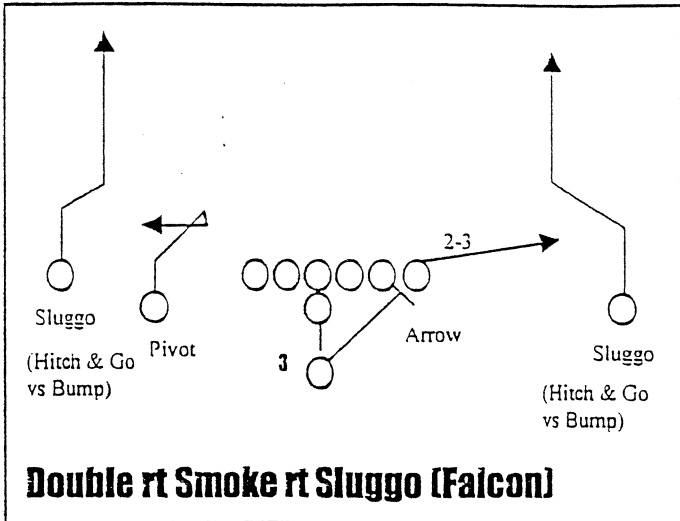

Triple rt Smoke rt 1 Run (Jets)

Can also call "2" Run
Progression:
1. X, Y
2. Y, H, Z

COMMENTS: Work wk vs single safety. Work strong vs 2 shell. Flat defender read.

SMOKE-Specials

BRONCO FOOTBALL

Double rt Smoke rt Sluggo (Falcon)

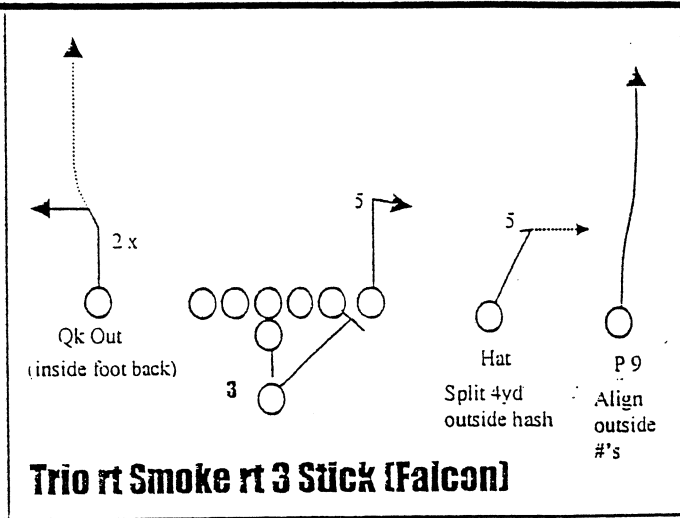

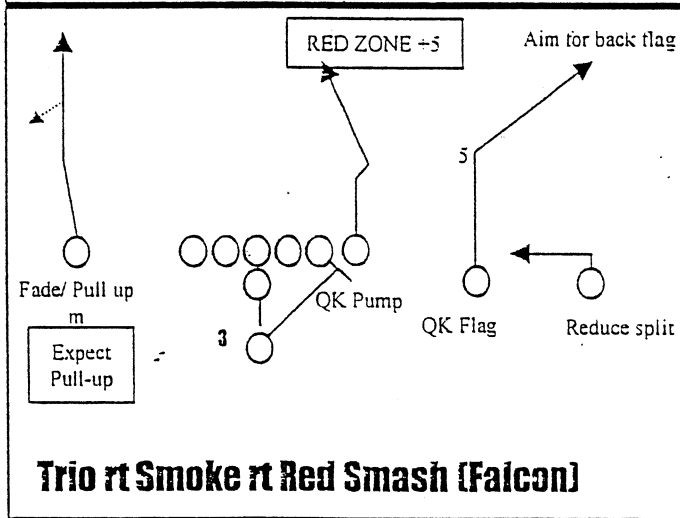

Double rt Smoke rt Sluggo 1 (Falcon)

Progression: X/H, Z/Y

COMMENTS: Shot play.
Don't forget throw behind if CB doesn't bite

Progression: X/H, Z/Y

COMMENTS: Shot play.
Don't forget throw behind if CB doesn't bite

Trio rt Smoke rt Red Smash (Falcon)

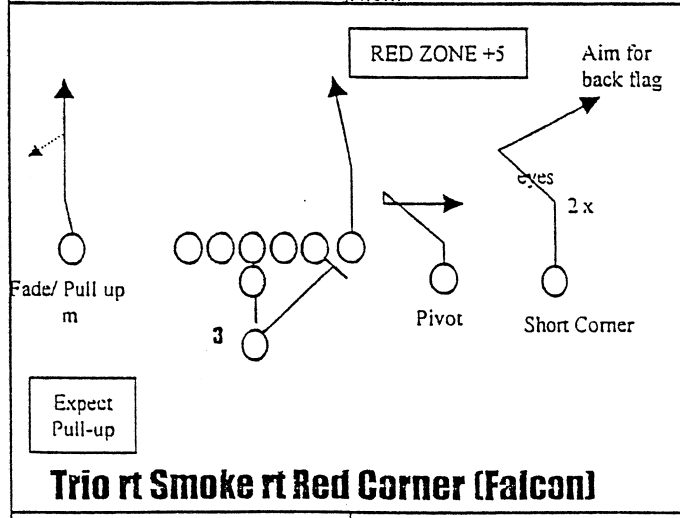

Trio rt Smoke rt 3 Stick (Falcon)

Progression:
1. H, Y, Z
2. X, throw away

COMMENTS: If CB is press on Z, think H. Work weak vs Single safety. Work strong vs 2 shell.

Progression: X vs Single H/Y

COMMENTS: Flat defender read vs. 2 Shell. Work X vs. loaded coverage

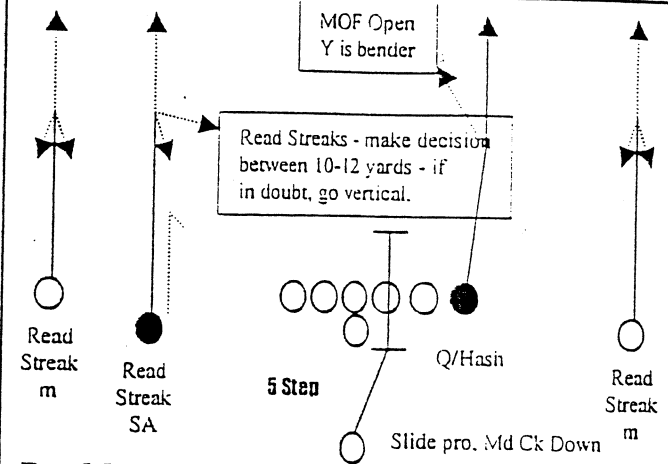

Trio rt Smoke rt Red Corner (Falcon)

Progression:
1. Z
2. H
3. Throw away

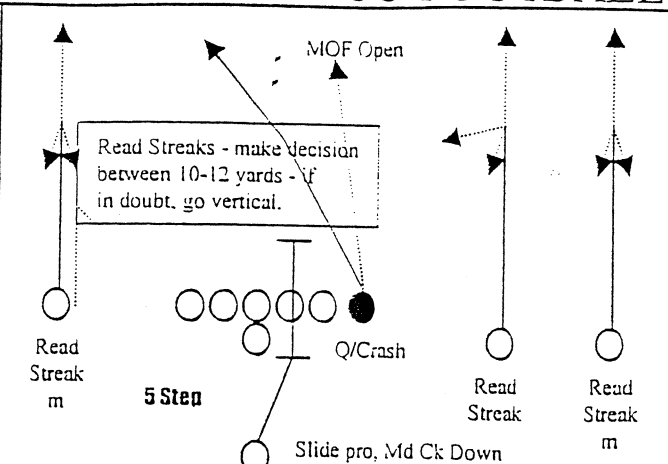

COMMENTS: Don't forget pull-up vs. Bump (single safety). Alert to TE vs. 2 Shell.

SLIDE ROUTES

BRONCO FOOTBALL

Double rt Slide rt Streak (Falcon)

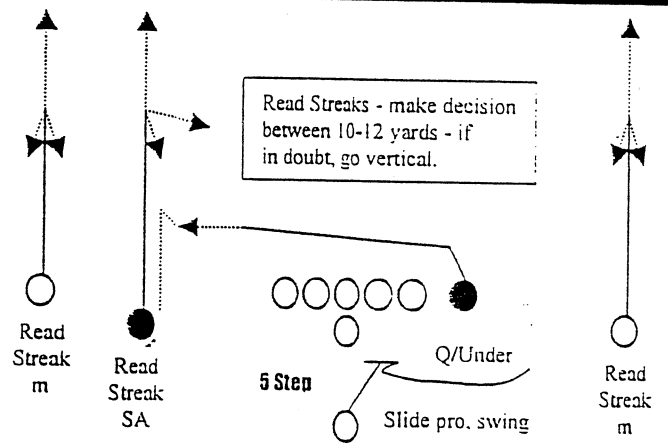

Trio rt Slide rt Streak (Falcon)

Progression: Cov 3: Wide hash/short hash/RB; Cov 0/1/4: Wide streaks/RB or short streak/RB if singled; Cov 2: Y/Z/T

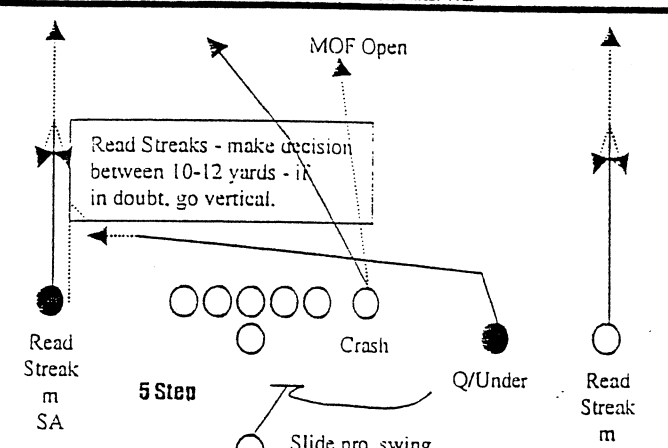

COMMENTS: If man over H backs up, you have single on outside receiver. Simple progression: read FS, streaks, RB

Progression: Cov 3: Wide hash/short hash/RB; Cov 0/1/4: Wide streaks/RB or short streak/RB if singled; Cov 2: Y/X/T

COMMENTS: If man over H backs up, you have single on outside receiver. Simple progression: read FS, streaks, RB

Double rt Slide rt Streak Y (Falcon)

Trio rt Slide rt Streak H (Falcon)

Progression: See FS: Streak/Under/Back

COMMENTS: See press/mismatch on streaks. Indicate SA by pointing. Think H/Under/RB vs any form of cloud coverage.

Progression: See FS: Streak/Under/Back

COMMENTS: If H is on the move, he is the Q. If static, Y is the Q. Think H/Under/RB vs any form of cloud coverage.

Double rt Zip Slide rt Streak Z (Falcon)

Triple rt Slide Rt Streak Hate (Triple)

Progression: See FS: Streak/Under/Back

COMMENTS: If Z is on the move, he is the Q. If it is static, Y is the Q. Think H/Under/RB vs any form of cloud coverage.

Progression: Cover 2: Start with Y/see Safeties. 0/1/4: Z/Y/T or X/Y/T.

COMMENTS: MOF open - start with Y and read safety leverage down to outlet (T or H)

SLIDE ROUTES

BRONCO FOOTBALL

Progression: X/H, T or Z/Y, T

COMMENTS: Best look side. Full field - takes two to sight/two to Q. Tailback is outlet when reading either side.

Progression: X/H, T or Z/Y, T

COMMENTS: Best look side. Full field - takes two to sight/two to Q. Tailback is outlet when reading either side.

Progression: Z/F, T or Backside

COMMENTS: Triangle/Backside.

Progression: Z/H, T or Backside

COMMENTS: Triangle/Backside.

Progression:
1. X, T, Y
2. Z, H, Y

COMMENTS:
Work X vs single safety.
Work Strong side vs 2 Shell

Slam

BRONCO FOOTBALL

Double Rt Slam Rt 9-Curl (Falcon)
